## Overview

SPB TV is a highly usable IP-TV solution, optimized to run on mobile devices. SPB TV provides users with lots of channels in multiple languages with easy-to-use features and settings. No subscription fee!

## Software Features

### Integrated TV Guide

Next to the preview picture you can see the integrated TV guide, pressing it will open the full guide for the next few days of the selected channel.

### Setting a Reminder

You can easily make Calendar reminder, from the TV guide, if you see an interesting show that you don't want to miss.

### Fast Channel Switching

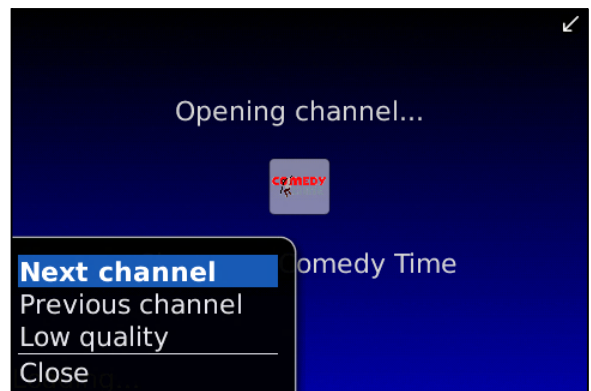

In the full screen watching mode you can switch to the next or previous channel by pressing the "MENU" button.

### Preview Picture

In the channel selecting panel you can see a preview picture of a selected channel displayed in inset window to help you make a decision before opening it for watching.

### Network Fluctuations Support

Automatically reduces the video quality but will retain audio quality when the Internet connection become slower. You can also change the video quality from the "MENU" in the full screen watching mode.

## Installation

Installation of SPB TV is a very simple process and takes less than five minutes to complete. The following installation guide will help you.

### System Requirements

Make sure your system meets the following minimum requirements before installation.

- BlackBerry Tour 9630,
- BlackBerry Storm 9530,
- BlackBerry Bold 9000,
- BlackBerry 8800 Series: Ev-DO 8830, WiFi 8820
- BlackBerry Curve: 8330 Ev-DO, WiFi: 8900, 8320, 8350i
- BlackBerry Pearl: 8130 Ev-DO, WiFi: 8120, 8220HTC

### Installing

To install SPB TV access the download web page and follow the instructions:

<http://spbsoftware.com/blackberry-software/tv/download.html>

### Registration

The trial version (Lite) of SPB TV has a restricted number of channels and features that are available in the registered version (full). You can use the trial version only to check how SPB TV works. In order to watch all public channels, use the reminder feature, and manage the channels list, you need to purchase the license. There is no need to re-install SPB TV in order to use the full version.

To obtain the serial number you need to [purchase](#) an SPB TV software license and you will receive your serial number by email.

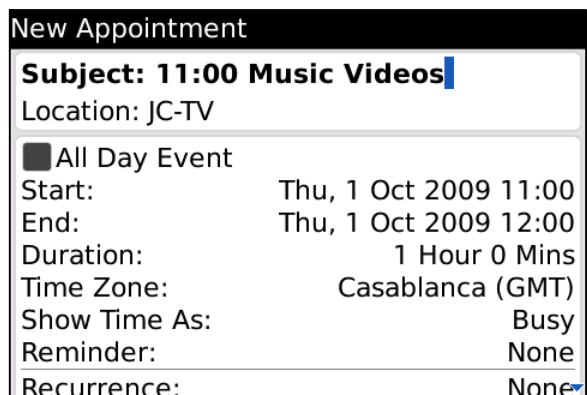

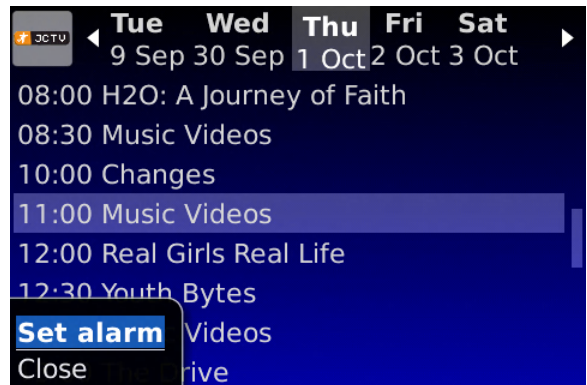

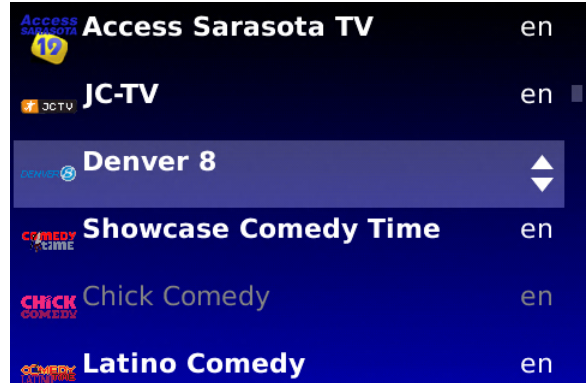

## Using of SPB TV

An Internet connection is required in order to use SPB TV service. Establish your preferred Internet connection method depending on your tariff plan before starting the program. To watch smooth online TV on your device a Wi-Fi, Ev-Do, or 3G Internet connection is needed.

- Start by selecting your favorite channels and organizing them. To do that open **Menu > Channels order** and unselect channels that you do not want to watch. You can also choose a channel, then move it up or down to organize the channels list.
- In any of SPB TV screens, press the "MENU" button to view the available options.
- Press the TV channel icon to start watching in full screen mode.
- Next to the preview picture you can see the integrated TV guide (if available), select **Menu > TV Guide** to open the full guide for the next few days.
- In the TV guide screen, you can set a reminder by simply pressing the appropriate show to be added as Calendar event.
- In the full screen mode you can recall the "MENU" at any time to quickly switch channels or change the streaming quality.

### Tip

You can use Trackball "action" button to select or unselect a channel when ordring the channels list.

## Technical Support

This chapter contains technical support information. It includes all the information you need to assist you.

### Contacting Technical Support

Please take advantage of one of the SPB Software free technical support options:

- Choose the appropriate category for your question and submit it to our support team at: <http://spbsoftware.com/blackberry-software/tv/support.html>
- Ask your technical question or post feature request to forum to get quicker reply directly from the developer's team. Solutions to your problems are available 24 hours a day at no cost on the SPB Club web site. You must first register as a member before using [SPB Club web support](#).

Please include the following information to help us isolate the problem:

- The type of the device that you are using.
- The software name and version number. Open SPB TV and select **Menu** → **About...** to view the software name and version number (example: SPB TV, version 1.0, Build 346).
- Any error messages that accompany the problem.
- A brief description of how we can recreate the issue.
