

# New & Updated Mobile Software

## Get More Done With Your Mobile Device

Looking to improve the functionality of your mobile device? We've compiled the most recently released applications and program updates for smartphones and PDAs to help business travelers maximize the potential of their mobile devices.

### New Titles For WINDOWS MOBILE

You probably know a few ways to stream video and audio onto your mobile phone, but with **Spb Online** (\$29.95; [www.spbsoftwarehouse.com](http://www.spbsoftwarehouse.com)) from Spb Softwarehouse, you can watch TV, listen to streaming radio, and play online games without dealing with any subscription pricing. Spb Online's TV functionality provides on-screen controls, an integrated TV guide, and intelligent stream tuning to help fix broadband signal fluctuations.

Looking to reduce the cost of your wireless subscriptions? You can use **WMWifiRouter** (\$29.98; [global.wmwifi.router.com](http://global.wmwifi.router.com)) from Morose Media to turn your smartphone into a wireless Internet hotspot and provide an alternative to expensive laptop data card services. The Windows Mobile application connects to

Watch TV, stream video, and listen to audio on your mobile phone with Spb Online.

devices via Wi-Fi, USB, or Bluetooth. When your phone reaches a certain battery level, WMWifiRouter will automatically shut down to prevent complete battery depletion.

### New Titles For iPHONE

Note that you can download third-party applications for the iPhone from the App Store on iTunes, but we'll list the manufacturer's Web site for each application so that you can check it out before heading to the App Store.

If you're looking for project management software, check out **Projjex** (pricing varies by plan; [www.projjex.com](http://www.projjex.com)) from Glassey Technologies, which lets you share tasks, documents, meetings, discussions, and schedules between a group of colleagues. With Projjex, you can invite as many people as you need to work with, and they can view, edit, and add items to your tasks. You control everyone's access, and Projjex lets you see a record of who changed what and when it happened.
